

# CLEANPOT SYSTEM®

## Benefits of foil covering on pots

### Clean plants

No more moss or weeds in the pots.

Cleaner processing when selling plants in the store and at the checkout.

### Plants have longer shelf life

The plants can be kept in store for longer as the moisture in the pot does not evaporate so quickly.

### Produced more sustainably

Lower environmental impact.

Reduced use of pesticides, water and fertilizer.

contributes to a smaller water and CO2 footprint.

### Pot and foil can be recycled

Both pot and foil are recyclable.

The foil is easy to remove.

Covered with bark

No covering
